

## Capabilities

Sage7, a creative mix of business management marketing and technology creates video, animation and technology services for its government and corporate clients.

Since the company's inception in 2006, we have experienced steady, consistent growth as the needs and expectations of the clients and users demand a high quality digital experience and information. We are specialists in creating stories in video tailored for the digital space. We are a small, minority owned business.

Our talent includes script writers, videographers, photographers, digital editors, animators, motion-graphics specialists, and producers with broadcast experience, who work collaboratively to conceive, create, and produce award winning products.
